Delay in approving your filing

Comments:

I'm sorry for the delay in approving your filing. The reason is that the when the filer sends a note to reviewer instead of responding to an objection letter, then the filing status never changes from Pending Industry Response to Pending State Action on our view. If it (the SERFF status) doesn't change then we have no idea that you have responded unless we open up the filing. I've got about 20 Pending Industry Response filings at this time--so you can see why we rely on the SERFF status change so much. I don't open each filing every day to see if they might have sent a response. I open the ones where the SERFF status changed because the filer sent a response to an objection report.

I will admit that the note to reviewer does show in in the Message center but on our side--at least for me--the message center is a real pain to use.
